Hide away your wheelie bins with this superior **Double Wheelie Bin Store**, it looks great anywhere in your garden, on your patio or at the front of your house.

Product Guarantee

Yes - Full Manufacturers

Building The Store

Following our simple instructions the store can be built within 1-2 hours. We also have a direct telephone line to our technical department should you require any assistance.

Quality Materials

Made from the highest quality tanalised redwood planed timbers, these stores are built to last. Redwood is the harder of all softwoods, all our timber is from an FSC Source.

Treatment

All the timber in the store comes pressure treated for a long and durable life. However we advise that a stain based treatment be applied annually to further extend the longevity and keep the store looking as new.

Delivery

The item will arrive flat packed and shrink wrapped on a pallet with a full set of assembly instructions fixtures and fittings. You will be contacted shortly after you place your order to arrange a suitable delivery date. Extra delivery charges may be applied to offshore islands and Northern parts of Scotland as well as inner London postcodes. Please enquire before ordering if you think this might apply to you. Your delivery maybe delayed if not checked at point of order.
